

## WebIntelligence Course Comparison

Details	Introduction to WebIntelligence	Advanced WebIntelligence
Course Description	The class is designed to introduce the various aspects of report writing and analysis within the WebIntelligence tool. Students will learn how to create, format, save, download, send and schedule reports. Reports created in the Introduction to WebIntelligence training are built using the Frequently Used and/or the Current Folders.	Students will learn how to create reports containing historical and future information as well as how to eliminate multiple rows in the All folder. Students interested in Advanced WebIntelligence should have a solid foundation of basic report writing and Oracle HR before taking this course.
Course Duration	7 hours – 1 day	7 hours – 1 day
Audience	Oracle HR Users who need to build ad-hoc reports from the HR3 Universe.	This class is designed for heavy users of the WebIntelligence ad-hoc reporting tool who have a need to create specific reports containing historical and/or future data.
Pre Requisites	Oracle HR for Manager's, Oracle HR End User or prior Oracle HR experience. Access to the HR3 Universe and the WebIntelligence reporting tool are required to participate. Access is granted by your business Power User or Center of Excellence. Complete GE's Employment Data Privacy online training.
